Office of Legislative Counsel

Thursday - 18 December 58

1. Ken BeLieu, Senate Armed Services Committee staff, telephoned to say that he had definitely accepted the position of Staff Director of the Senate Space Committee. In this new capacity he indicated he was very desirous of getting together with me in the near future to see what possible help the Agency could be to the Committee. I assured him we would do anything possible to assist.

2. Requested Roger Seely to advise as soon as possible any information they receive on the publishing of any article or interview of Senator Humphrey in Izvestia. (Any word on this should go immediately to the Senator since he requested advice on whether or not it had been published.)

**JOHN S. WARNER
Legislative Counsel**
